SUPPLY CHAIN ORGANIZATION  
"TURNKEY"

## DISTRIBUTION

**BEAR & DRAGON BUSINESS SOLUTIONS LIMITED** provides services for organizing distribution, on an exclusive basis, of goods and services of foreign companies on the territory of the Russian Federation.

Distribution, in simple words, is a mechanism for selling goods. But behind all the simplicity and obviousness, there are many “pitfalls” and factors that affect the result. A well-established distribution process brings dividends to the business owner in the form of stable profits, constant sales growth and an increase in the client base.

The key to success in organizing distribution is: a professional and purposeful team that knows all the stages and technology of product sales, effective advertising, well-organized logistics, automation of order processing and delivery to the end consumer. We own all the necessary components for organizing the successful distribution of any product on the market.

We provide a full range of services related to distribution on the territory of the Russian Federation. The priority for us is the availability of exclusive rights to distribute goods and services on the territory of the Russian Federation, as well as in friendly countries of the former CIS.

We will be glad to start mutually beneficial cooperation in this direction with each new client of the company who is interested in joint success.

*Best wishes,*  
**BEAR & DRAGON BUSINESS SOLUTIONS LTD.**
